Ingredients

Grain Products, Processed Grain By-Products, Molasses Products, Lignin Sulfonate, Calcium Carbonate, Potassium Chloride, Salt, Magnesium Oxide, Vegetable Oil, Manganese Hydroxychloride, Zinc Hydroxychloride, Selenium Yeast, Basic Copper Chloride, Copper Sulfate, Vitamin E Supplement, Ethylenediamine Dihydriodide, Cobalt Proteinate, Thiamin Hydrochloride, Vitamin A Supplement, Vitamin D Supplement, Yea-Sacc 1026®

Directions for Use

Feed Mix Elk Pellet is designed as a supplemental feed for elk. Unlimited roughage in the form of hay or grass should be available, or add 10% hay to from a TMR. Fresh, clean water should always be provided. Monitor feed levels in self-feeders so that an adequate amount of feed is always available. Running out of feed can lead to overeating when self-feeders are refilled.

Caution

Do not feed to sheep due to high copper levels.
