Ingredients

Processed Grain By-Products, Grain Products, Molasses Products, Lignin Sulfonate, Calcium Carbonate, Potassium Chloride, Salt, Magnesium Oxide, Vegetable Fat, Manganese Hydroxychloride, Zinc Hydroxychloride, Selenium Yeast, Basic Copper Chloride, Vitamin E Supplement, Ethylenediamine Dihydriodide, Cobalt Proteinate, Thiamin Hydrochloride, Vitamin A Supplement, Vitamin D Supplement, Urea, Yea-Sacc 1026®

Directions for Use

Feed cattle 2% of their body weight in grain and unlimited forage in the form of hay or pasture. If fed as a TMR, feed at a rate of 3% of body weight, 2% being grain and 1% being chopped hay. Fresh, clean water should always be provided.

To provide 50 to 200 milligrams of Monensin Feed at a rate of 2.2 to 8.9 pounds daily.

Caution

Do not feed to sheep due to high copper levels. Do not allow horses or other equines access to formulation containing Monensin. Ingestion of Monensin by equines has been fatal. Monensin medicated cattle feed is safe for use in cattle only. Do not exceed the levels of Monensin recommended by the feeding directions, as reduced average daily gains may result. If feed refusals containing Monensin are fed to other groups of cattle, the concentration of Monensin in the refusals and amount of refusals fed should be taken into consideration to prevent Monensin overdosing. A withdrawal time has not been established for pre-ruminating calves. Do not use in calves to be processed for veal.

Manufactured by:
